**NHTSA RECALL #13V-638**  
**33AA ALLEGRO FIREPLACE**

January 14, 2014

Dear Tiffin Motorhome Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

It has been decided that a defect, which relates to motor vehicle safety, exists on some 33AA Allegro RED Motorhomes equipped with an electric fireplace manufactured for the model years 2013 and 2014. This recall only affects fireplaces that have the heat vent at the bottom of the fireplace. Tiffin Motorhomes has found that there is an exposed piece of wood in these electric fireplaces that could possibly get too hot and cause a fire. The modification consists of a heat shield installed over the exposed piece of wood.

Please do not attempt to repair this yourself. Please take your coach to one of our dealers or a reputable service center to have the repair completed. We are allowing 1 hour for the fix to be completed. We have enclosed the parts and instructions that your service center will need for this repair. Please take this letter, the completion form, the parts and the instructions to your dealer or service center. The enclosed completion form need to be completed by the service center and returned with their invoice for payment.
